

Our Central Territory Enterprise Agreement (for Enterprise and National Car Rentals) has been updated. We now have a Business Account and a separate Personal Use Account. In the future, when reserving a vehicle, you'll need to reference the correct account number. This will correctly identify whether this is an official or personal use rental. Although pricing between the two may differ (business rental discounts will be greater), personal rentals can no longer be placed using the Business Account or receive the same business rental discounts. Enterprise/National will provide TSA personnel with personal rental discounts different from regular consumer rates.

The following link will take you to the enterprise website:

Account numbers to use when reserving your vehicle with Enterprise or National:

- Business rentals: Account Number XZ15S77
- Personal Use rental: Leisure Account Number XZ15P91

If using the app...when reserving a vehicle, please update the "Account Number" field before selecting your vehicle. This will bring up the appropriate rate.

Failure to utilize the appropriate rate will jeopardize the overall business account and the business rates we are offered. We thank you for your cooperation. If you usually travel for business use and have the Business ID# linked to your Emerald Club profile, you must verify the correct account number each time.
